Bankers Go Into the Market and Lift Weak Issues on Big Buying Orders, While Entire List Benefits.

Stocks closed strong to-day, with gains ranging from 2 to 4 points and the entire list sharing liberally in the advance. A big buying movement, fathered by the banking interests and inau-gurated in the first hour, was continued until the last, although the final dealings lacked the activity and vigor of early trading.

The closing prices, however, were at the highest of the day and the session as a whole was most satisfactory.

Held Up Values. check to the heavy liquidation, which had been demoralizing the market, followed a combined move by leading financiers, who had planned overnight to quite swamp the Exchange with buying orders, and, having lifted values,

keep together and meet any reaction. This policy was evident in the initial doings, when plocks of Steel common and preferred were thrown on the market at prices showing new low records for each. Brokers acting for J. P. Morgan were ready and snapped up the offering, and followed the purchases with bids for more at advances.

Then the booming began, and Metropolitan, which had also sunk to a new bottom level, was taken in hand, and with the tractions, which had been badly battered recently, lifted along to considerable gains.

Pennsylvania Up.
